Rhizosphere 5

THE EVENT

Rhizosphere 5, the fifth in a series of international conferences devoted to the study of the rhizosphere, will take place in July 2019 and will be hosted by the University of Saskatchewan in Saskatoon, Saskatchewan Canada.

Rhizosphere 5 builds on past successes of the Rhizosphere conferences held in Munich (2004), Montpellier (2007), Perth (2011), and Maastricht (2015); and is the first in the series to be held in North America. The general theme for the conference is “Shining light on the world beneath our feet”.

As with the previous conferences, Rhizosphere 5 will provide a multidisciplinary forum for exchanging innovative ideas and methods for studying the rhizosphere and understanding its complexity and its role in both natural and agricultural ecosystem processes. The conference provides a stage for both young and established scientists to present their work to a welcoming international audience.

THE LOCATION

Saskatoon is located in the Moist Mixed Grassland Ecoregion of the Prairie Ecozone, an area characterized by broad plains interrupted by “deep, scenic valleys and subdued, hilly uplands”. Known as the Bridge City, Saskatoon is Saskatchewan’s largest city and home to the Canadian Light Source Synchrotron, Canada’s largest science project, and Innovation Place, one of the most successful university-related research parks in North America.

The Convention Centre at TCU Place is the venue for the scientific program for Rhizosphere 5, and is located in the heart of downtown Saskatoon - within walking distance of several hotels.

The Rhizosphere 5 conference offers exhibition opportunities for interested stakeholders. This is an excellent opportunity to gain visibility in the dynamic, rapidly expanding soil health research community, and showcase your products, services, or activities to a diverse national and international audience.

Rhizosphere 5

Rhizosphere5

TECHNICAL SESSION – \$650

Prices are in Canadian dollars | Taxes are included

Rhizosphere5 offers exhibitors the possibility to hold one 50-minute technical session on their services and products. The sessions will be open to all delegates and run parallel to the concurrent conference sessions. A technical session can only be booked in combination with an exhibition booth.

Booking of the technical session includes:

- ✓ Meeting room with a capacity of up to 100 people
- ✓ Audio visual equipment: screen, projector, presentation laptop, slide advancer, podium and mic (any additional AV equipment would be charged back at cost)
- ✓ Advertising of the session in the program book and online

Sessions and time-slots will be allocated on a first-come first-serve basis.

Please indicate your preferred time below.
